Re Conditions around DeRussey's
Lane the night of the murder

Some time ago I reported the result of an interview which I had with George C. Hubner, a member of the park police, who is stationed and lives right in Buccleuch Park. The other day, while Mr. Watson and myself were out looking up reputation witnesses, Mr. Watson had a talk with Mr. Hubner. Hubner had nothing much further of interest, except that he claims that the story about Jim Mills or Henry Mills spying around Buccleuch Park was news to him, that he had never observed anything of the kind. Further he claims that his brother was one of the vestry of St. John's Church and that he himself was well acquainted with the Reverend Hall and knew Mrs. Mills. In fact, Hall had come to his house time and again. It seems unreasonable to him that Hall, knowing that he was a police officer around the Park, would have come and sit around at night on a bench with Mrs. Mills, because he would undoubtedly realize that Hubner would recognize him.

Respectfully submitted,

David Thompson
